# KEY ADVANTAGES BULLION GOLD / SILVER

## STABILITY AND SECURITY

The global GDP experienced an average growth rate of **3.1%** in 2023, but it is expected to decrease to **2.9% or below of it** in both 2024 and 2025. In comparison, gold has historically demonstrated flexibility against market fluctuations, providing a safe haven investment avenue.

## PORTFOLIO DIVERSIFICATION

Including bullion gold in a diversified portfolio helps reduce overall risk and enhances long-term returns with **11.55%** annual compound growth rate of returns.

## DEVALUATION INFLATION HEDGE

In the previous year, 2023, the global inflation rate stood at **6.9%**. However, this year in 2024, it is expected to fall to **4.9%** and it is unlikely to drop below **3.8%**. Meanwhile, gold has proven to be an effective hedge against inflation, preserving wealth over time and safeguarding against the devaluation of currencies worldwide. Therefore it is better to place your funds into Gold/ Silver.

# KEY CATALYSTS FOR GOLD / SILVER PRICE SURGE

- ▶ Geopolitical Tensions.
- ▶ Global GDP Likely to Stale or Down.
- ▶ Global Inflationary Pressures.
- ▶ Elections.
- ▶ Bank Defaults.
- ▶ Currency Developments Amidst Brexit.
- ▶ Cultural Increase in Demand and Limited Supply.
- ▶ New printing Currency tenders & Devaluation due to Unpegging from Gold.
- ▶ Introduction of Gold ETFs on CME (Since 2017) rose demand in safe heaven.
- ▶ Historical Patterns and Price Growth.

## INVESTMENT STRATEGY:

Our proposed investment strategy involves acquiring physical bullion gold, ensuring direct ownership and mitigating counterparty risks associated with financial instruments. This approach provides investors with a tangible and secure asset, offering peace of mind in times of economic volatility.

## GOLD PROJECTIONS:

Based on historical performance and current market trends, our financial projections indicate favorable returns over the investment horizon. These projections are conservative, considering the potential for unforeseen economic events. However we believe as long as above \$1980 our forecast for the year 2024 is likely remain range from \$2374 per oz. and \$2500 per oz.

## RISK MITIGATION:

While acknowledging the inherent risks in any investment, our proposal emphasizes proactive risk management strategies. These include comprehensive insurance coverage, secure storage facilities, and periodic audits to ensure the integrity of the bullion. Nevertheless we also believe upon trigger of any significant level the gold correct from range \$250 to \$400 dollars from the vantage point.

## EXIT STRATEGY:

In the event of a need to liquidate or reallocate assets, our proposed exit strategy allows for a seamless process, ensuring optimal returns for investors. This includes strategic partnerships with reputable dealers and auction houses for the sale of bullion gold.

## CONCLUDING REMARKS

Considering the prevailing global scenario wherein there persists a **consistent -0.90 returns in the real economy**, the proposition to invest in bullion gold emerges as a compelling opportunity for investors prioritizing stability, security, and sustained growth. Anchored by a robust investment strategy, Meticulous risk management measures, and a clearly defined exit plan, this proposal endeavors to furnish investors with a judicious avenue for capital appreciation, all while safeguarding wealth amidst the dynamic shifts of the contemporary economic landscapet.
